PROFESSIONAL SUMMARY

Results-driven Software Developer with hands-on experience in Flutter mobile development, front-end engineering, and IT support. Skilled in building cross-platform mobile applications using Flutter and Dart, integrating REST APIs, and developing responsive user interfaces. Seeking a Software Engineer or Flutter Developer role to deliver efficient, high-quality applications in a growth-oriented environment.

EXPERIENCE

IT Support Engineer (Full-Time)

April 2025 – Present

Elite Zone Delivery Services LLC – Dubai, UAE

- Diagnosed and resolved hardware, software, printer, and network-related issues, ensuring minimal downtime and efficient business operations.
- Developed and optimised front-end interfaces for company platforms, including content updates, plugin coordination, performance optimisation, and basic security hardening.
- Coordinated SEO-related activities, collaborating with internal and external teams to improve search visibility and performance tracking.
- Collaborated with cross-functional teams to troubleshoot and enhance website usability, performance, and availability.
- Configured and managed networking devices including routers, switches, and firewalls; implemented VPN configurations and security rules.
- Diagnosed and resolved LAN, WAN, and internet connectivity issues to maintain stable and secure network operations.
- Performed routine system administration tasks: OS installations, patch management, system updates, and preventive maintenance.
- Maintained IT asset inventory, technical documentation, and incident reports to support audit readiness and operational efficiency.

Jr. Network Engineer (Intern)

March 2024 – August 2024

Soften Technologies – Cochin, India

- Configured and managed network infrastructure with a focus on performance, security, and reliability.
- Implemented firewall rules, VPN configurations, and access control policies.
- Deployed and maintained AWS cloud resources for hybrid environments.
- Automated network tasks using Ansible and Terraform.
- Conducted troubleshooting and performance tuning to improve uptime.

IT Support Engineer (Intern)

May 2023 – July 2023

WebEaz Technologies – Calicut, India

- Provided technical support for software, systems, and network issues.
- Configured and managed ERPNext applications with Python-based customisations.
- Assisted in backend optimisations and database performance improvements.
- Worked in Agile teams, participating in sprint planning and bug tracking.

Mobile Application Developer (Intern)

May 2022 – June 2022

Blue Line Computers – Mangalore, Karnataka, India

- Developed cross-platform mobile applications using Flutter and Dart.
- Integrated REST APIs and implemented dynamic UI updates.
- Applied OOP principles and optimised application performance.
- Debugged and tested applications to ensure stability and scalability.

CORE SKILLS

- **Programming & Development:** Python, Dart, HTML, CSS, SQL, JavaScript, Node.js
- **Mobile Development:** Flutter, Cross-Platform Apps (Android & iOS), API Integration, State Management (BLoC/Provider)
- **Web Development:** WordPress, Responsive Web Design, Website Maintenance, UI Optimisation
- **Software Engineering:** OOP, Data Structures, Debugging, SDLC, Agile Methodologies, Git/GitHub
- **Databases & Backend:** MySQL, Firebase, ERPNext (Frappe Framework)
- **Tools & Platforms:** VS Code, Android Studio, AWS (EC2, S3), Linux, Windows
- **IT & Networking:** LAN/WAN Troubleshooting, VPN, Firewalls, CCTV Systems
- **Languages:** English, Hindi, Tamil, Malayalam, Arabic

PROJECT EXPERIENCE

Bee Hive Monitoring System (Final Year Project)

- Developed an IoT-based monitoring system using Raspberry Pi and camera modules.
- Trained a custom YOLOv8 model for real-time object detection.
- Implemented alert and notification mechanisms for proactive monitoring.
- Optimised performance and reduced detection latency.

Zippy e-Library Mobile Application

- Built a cross-platform Flutter application with authentication and book management features.
- Integrated RESTful APIs for real-time data updates and focused on UI/UX enhancements.

Grocery Shopping List App

- Developed a Flutter app with Firebase for real-time data storage; implemented add, update, and delete functionalities.
- Designed responsive UI with state management for seamless cross-device experience.

Expense Tracker App

- Built a personal finance tracking app in Flutter with expense categorisation, data visualisation, and state management.

Money Converter App

- Built a real-time currency conversion app using Flutter and REST APIs with error handling and responsive UI.

Weather Forecast App

- Created a location-based weather app with real-time API integration and adaptive interface design.

Door Lock Sensor App (IoT)

- Built an anti-theft mobile app integrated with IoT sensors for real-time alert notifications.

Automatic Hand Wash Timer (IoT)

- Developed an IoT-based automation system with mobile integration and timed hygiene alerts.

EDUCATION

Bachelor of Engineering in Computer Science

2019 – 2023

P.A. College of Engineering, Mangalore, India | GPA: 7.06

Higher Secondary Certificate

2017 – 2019

Kerala Higher Secondary Examinations | 70%

CERTIFICATIONS & TRAINING

- AWS Solutions Architect Associate – Training Completed
- Red Hat Certified Engineer – Training Completed
- CCNA Enterprise – Training Completed
- Flutter App Development – Internship Certification
- National Level Workshop on Artificial Intelligence Using Python – First Place

ADDITIONAL INFORMATION

- Open to roles in Software Development, Flutter Development, Web Development, and Application Development.
- Strong interest in Flutter development and software engineering; actively contributing to GitHub.
